OpenRoad Lending does not endorse the CamScanner app but has received feedback from our customers that it works well for them

## CamScanner

Free document scanner for Apple and Android smartphones.

Step 2 – Once downloaded, open the app and touch the camera icon at the bottom of the screen.

## CamScanner

Free document scanner for Apple and Android smartphones.

Step 3 – Point your camera at the document. Be sure it's not cut off, well lit and focused. Touch the camera icon again to snap the picture.

## CamScanner

Free document scanner for Apple and Android smartphones.

Step 4 – If the picture is of good quality and legible then touch the check mark at the bottom of the screen. The app will automatically crop the background out. Make sure the document is lined up properly. If not, drag the border so that it is and touch the check mark one more time.
